PRESS RELEASE

For release November 15, 2007

Ningbo Green-Health Pharmaceutical Co., Ltd. Receives NSF Certification

Logan, UT, November 15, 2007 – A. M. Todd Botanical Therapeutics (AMTBT), a major supplier of botanical extracts and nutritional supplements, announces that its primary manufacturer, Ningbo Green-Health Pharmaceutical Co., Ltd. (NGHP), has been awarded NSF International Good Manufacturing Practices (GMP) Registration. This registration is based on a successful in-depth audit demonstrating NGHP’s compliance with current dietary supplement GMPs.

Regarding the NSF Registration of NGHP, Lloyd Mangun, AMTBT Director of Global Operations, commented, “NGHP was selected as our primary manufacturer because of their strong commitment to high quality standards. The recent NSF audit and award of registration provides a way for us to communicate to our industry what we have known for quite some time—that NGHP is a first-rate manufacturer of botanical extracts and nutritional supplements. We congratulate NGHP on earning this prestigious registration.”

NSF International conducted a plant audit to verify compliance with current GMPs and will conduct periodic audits at NGHP to ensure continued conformance. GMPs are regulatory requirements that provide guidelines for necessary processes, procedures and documentation to assure the product produced has the identity, strength, composition, quality and purity it is represented to possess. The NSF Good Manufacturing Practices (GMP) Registration for contract manufacturers and internal manufacturing facilities of dietary supplement companies enables those manufacturers to become independently registered by NSF as complying with GMP requirements as listed in Section 8 of NSF/ANSI standard 173-2006.

In addition to the manufacture of AMTBT proprietary products by NGHP, AMTBT has exclusive distribution rights in North America to all NGHP manufactured products, most notably chondroitin and bilberry, ginkgo and ginseng extracts.

About A. M. Todd Botanical Therapeutics, LLC

A. M. Todd Botanical Therapeutics, LLC (AMTBT) is a leading developer, manufacturer, and supplier of quality botanical extracts, custom and proprietary blends, dietary supplements, and new bioactive products. AMTBT is headquartered in Logan, Utah, and is a subsidiary of A. M. Todd Group. For more than 138 years, the A. M. Todd name has symbolized resourcefulness, quality and authenticity.
